About This Service

The XPRESSuite Forms Library is a repository of common third-party forms mapped for use in XPRESSuite.

Access to the Library is open to dealers licensing the XPRESSuite modules.

Dealers can choose which forms from this library to add to, or update within their own environments.

Each form is Mapped (reference [Univeris Self-Serve Forms User Manual](#)) and the following instructions are to Publish these to your library.

XPRESSuite Forms - Publish a SmartForm

ADDING a form to your Self-Serve Forms Library

The following steps will enable this form for the Supported Use Cases in XPRESSuite.

Step 1: Add New Form

EWMS > Operations > Self-Serve Forms > Forms Library

- Click the "Add New Form" button in the top toolbar.

Step 2: Identify Lables and Upload Form

EWMS > Operations > Self-Serve Forms > Forms Library > Form Details

Enter the following lables for the fields on this screen. Any fields not identified can be left at their default value.

FORM DETAILS

Lable	Example
Form Code	AIM-NAAF-INVESTMENT
English Name	Invesco Investment Application
French Name	Demande de placement Invesco
Group Tags	AIM NAAF

UPLOAD PDF TEMPLATES

Upload both the English and French PDF Templates using the File Upload controls on this screen.

Example

English: AIM-NAAF-INVESTMENT-EN.pdf

French: AIM-NAAF-INVESTMENT-FR.pdf

Click the **Save** and **Next** button on the bottom-right.

Step 3: Advanced Options

EWMS > Operations > Self-Serve Forms > Forms Library > Form Options

Enter Optional conditions and fields on this screen. Any fields not identified can be left at their default value.

- Click the **Save** and **Next** button on the bottom-right.

Example

Option	
Page Expansion Element	client.coOwner[J,I][#]~relatedParty[B][#]~account[#].autoInstruction[2242,2241][#]~account[1].autoInstruction[7241][#]

Step 4: Assign Workflow Rules

EWMS > Operations > Self-Serve Forms > Forms Library > Workflow Rules

Create a Business Rule with the following "when" and "then" parameters using Data Dictionary elements

1. Identify the Form
2. Assign the form to a Business Process
3. Provide conditional values such as Management Company, Account Type and Designation

EWMS Business Process and Elements

There are 3 business data elements required for each form to be triggered within the appropriate workflow processes

Business Process	Onboarding	Trading
Business Transaction Class	Account Open	Order Placement
Business Transaction Types	Account Type	Order Type
Business Services	1. Account Open 2. Systematic Instruction PAC, AWD	1. Initial Investment 2. Subsequent Investment

Master references

1. Business Processes
2. Business Transaction Classes
3. Business Transaction - Account Types
4. Business Transaction - Order Types

Workflow Controls

Operation / Data Dictionary element	Value	Description
Rule	Form Code	Unique name of rule for form (shared by English and French versions)
Dialect	"mvel"	syntax language to describe rule, see Wikipedia
WorkflowRulesProcess(code	Form Type	Identify the Business Transaction Classification 1. "AO" - Account Open 2. "TI" - Order - Transfer In
Business Transaction - Account types		
Account(managementCompany.clientName	"Yes"	Designation

Operation / Data Dictionary element	Value	Description
Account(managementCompany.code	FundSERV code	Client Name Management Company Code
Account(type.mnemonic	Account Types	Account Type Explicit list of account type codes
Business Transaction - Trading types		
Order(type	Order Types	

Example

Condition Statement

```

rule "AIM-NAAF-INVESTMENT"
  dialect "mvel"
  when
    WorkflowRulesProcess(code == "AO")
    Account(managementCompany.clientName == "Yes")
    Account(managementCompany.code == "AIM")
    Account( type.mnemonic == "OPEN" || == "RRSP" || == "SRSP" || == "LRSP" || == "LIRA" ||
    == "RLSP" || == "RRIF" || == "SRIF" || == "LRIF" || == "LIF" || == "PRIF" || == "RLIF" )
  then
    SingleApplicationForm form = new SingleApplicationForm(); form.setCode("AIM-NAAF-
    INVESTMENT"); form.setMandatory(true); insert(form);
  end

```

- Validate and Save the rule
- Build and Create the updated Package with this new rule
- Click the **Finish** button.

UPDATING this form in your Self-Serve Forms Library

The following steps will update the PDF Templates for this form where it already exists in the Self-Serve Forms Library.

Step 1: Find the form

EWMS > Operations > Self-Serve Forms > Forms Library

- Search for the **Form code**: (example AIM-NAAF-INVESTMENT)
- Click the **Edit** button in the Search Results list.

Step 2: Upload PDF Template form

EWMS > Operations > Self-Serve Forms > Forms Library > Form Details

UPLOAD PDF TEMPLATES

Upload both the English and French PDF Templates using the File Upload controls on this screen.

NOTE: Uploading a file will replace the existing file in your Self-Serve Forms Library.

Example:

English: AIM-NAAF-INVESTMENT-EN.pdf

French: AIM-NAAF-INVESTMENT-FR.pdf

Click the **Save** and **Next** button on the bottom-right.

Step 3: Advanced Options

EWMS > Operations > Self-Serve Forms > Forms Library > Form Options

Do not make changes to the values on this screen.

Click the **Save** and **Next** button on the bottom-right.

Step 4: Workflow Rules

EWMS > Operations > Self-Serve Forms > Forms Library > Workflow Rules

Do not make changes to the values on this screen.

Click the **Save** and **Next** button on the bottom-right.

Constraints and Limitations

Field Mappings	Some fields on the PDF Templates may not be mapped to EWMS 1. Conditionally-populated fields and fields requiring custom Data Dictionary extensions are not mapped. 2. Fields that have no corresponding data element in EWMS are not mapped.
Dealer Customizations	Dealers may make further changes to the PDF Templates to add or modify the existing mappings however, Dealers are responsible for maintaining such customizations including managing versions and reconciling changes with each new version.
Bar Codes	Dealers may modify the PDF templates to add bar code fields compatible with their specific document imaging system. However, similar to other Dealer Customizations outlined above, maintenance of bar code customizations is the responsibility of the dealer.
Embedded Javascript	Self-Serve Forms does not officially support the use of Javascript embedded in PDFs. Where a fund company embeds Javascript functionality into the PDF, those functionality may or may not work as expected.

 - b. RLSP

- c. LIRA
- 3. Non-Registered/Open/Cash/Investment Accounts
 - a. Individual
 - b. Joint
 - c. In Trust For
 - d. Non-Personal
 - i. Corporation

Unsupported Use Cases

Although the manufacturer supports using this form for other use cases, as delivered, they are not enabled in EWMS:

- 1. Open Account* with Systematic Instructions:
 - a. Automatic Switches
- 2. Place Initial Investments:
 - a. Purchase
 - b. Transfers
- 3. Place Subsequent Investments:
 - a. Purchase
 - b. Transfer
 - c. Redemption

How To Use This Form

ADDING this form to your Self-Serve Forms Library

The following steps will enable this form for the Supported Use Cases in XPRESSuite.

Step 1: EWMS > Operations > Self-Serve Forms > Forms Library.

Click the "Add New Form" button in the top toolbar.

Step 2: EWMS > Operations > Self-Serve Forms > Forms Library > Form Details

Enter the following values for the fields on this screen. Any fields not identified can be left at their default value.

Form Details

Form Code:

GGF-NAAF-INVESTMENT

English Name:

BMO (Advisor) Application Form

French Name:

Demande d'ouverture de compte BMO (Conseiller)

Group Tags:

BMO
GGF
NAAF

Upload PDF Templates

Upload both the English and French PDF Templates using the File Upload controls on this screen.

English: *BMO-NAAF-INVESTMENT-EN-1023.pdf*

French: *BMO-NAAF-INVESTMENT-FR-1023.pdf*

Click the "Save and Next" button on the bottom-right.

Step 3: EWMS > Operations > Self-Serve Forms > Forms Library > Form Options

Enter the following values for the fields on this screen. Any fields not identified can be left at their default value.

Advance Options

Page Expansion Element:

relatedParty[B][#]~account[1].autoInstruction[7241][#]~account[1].autoInstruction[2242][#]~client.coOwner[J,I][#]

Click the "Save and Next" button on the bottom-right.

Step 4: EWMS > Operations > Self-Serve Forms > Forms Library > Workflow Rules

Create a Business Rule with the following "when" and "then" parameters.

rule "GGF-NAAF-INVESTMENT"

dialect "mvel"

when

WorkflowRulesProcess(code == "AO")

Account(managementCompany.clientName == "Yes")

Account(managementCompany.code == "GGF")

Account(type.mnemonic == "OPEN" || == "RRSP" || == "SRSP" || == "RLSP" || == "LIRA" || == "LRSP")

then

SingleApplicationForm form = new SingleApplicationForm(); form.setCode("GGF-NAAF-INVESTMENT"); form.setMandatory(true); insert(form);

end

Validate and Save the rule, then Build and Create the updated Package with this new rule.

Click the "Finish" button.

UPDATING this form in your Self-Serve Forms Library

The following steps will update the PDF Templates for this form where it already exists in the Self-Serve Forms Library.

Step 1: EWMS > Operations > Self-Serve Forms > Forms Library.

Search for the form code: GGF-NAAF-INVESTMENT

Click the "Edit" button in the Search Results list.

Step 2: EWMS > Operations > Self-Serve Forms > Forms Library > Form Details

Upload PDF Templates

Upload both the English and French PDF Templates using the File Upload controls on this screen.

NOTE: Uploading a file will replace the existing file in your Self-Serve Forms Library.

English: BMO-NAAF-INVESTMENT-EN-1023.pdf

French: BMO-NAAF-INVESTMENT-FR-1023.pdf

Click the "Save and Next" button on the bottom-right.

Step 3: EWMS > Operations > Self-Serve Forms > Forms Library > Form Options

Do not make changes to the values on this screen.

Click the "Save and Next" button on the bottom-right.

Step 4: EWMS > Operations > Self-Serve Forms > Forms Library > Workflow Rules

Do not make changes to the values on this screen.

Click the "Save and Next" button on the bottom-right.

Notes

Constraints and Limitations

1. Field Mappings
Some fields on the PDF Templates may not be mapped to EWMS
 - a. Conditionally-populated fields and fields requiring custom Data Dictionary extensions are not mapped.
 - b. Fields that have no corresponding data element in EWMS are not mapped.
2. Dealer Customizations
Dealers may make further changes to the PDF Templates to add or modify the existing mappings however, Dealers are responsible for maintaining such customizations including managing versions and reconciling changes with each new version.
3. Bar Codes
Dealers may modify the PDF templates to add bar code fields compatible with their specific document imaging system. However, similar to other Dealer Customizations outlined above, maintenance of bar code customizations is the responsibility of the dealer.

4. Embedded Javascript

Self-Serve Forms does not officially support the use of Javascript embedded in PDFs. Where a fund company embeds Javascript functionality into the PDF, those functionality may or may not work as expected.

Upload PDF Templates

Upload both the English and French PDF Templates using the File Upload controls on this screen.

(Click the file name to download.)

NOTE: Uploading a file will replace the existing file in your Self-Serve Forms Library.

English: [NBC-NAAF-EDUCATION-EN-0817.pdf](#)

French: [NBC-NAAF-EDUCATION-FR-0817.pdf](#)

Click the "Save and Next" button on the bottom-right.

Step 3: EWMS > Operations > Self-Serve Forms > Forms Library > Form Options

Do not make changes to the values on this screen.

Click the "Save and Next" button on the bottom-right.

Step 4: EWMS > Operations > Self-Serve Forms > Forms Library > Workflow Rules

Do not make changes to the values on this screen.

Click the "Save and Next" button on the bottom-right.

Notes

Constraints and Limitations

1. Field Mappings
Some fields on the PDF Templates may not be mapped to EWMS
 - a. Conditionally-populated fields and fields requiring custom Data Dictionary extensions are not mapped.
 - b. Fields that have no corresponding data element in EWMS are not mapped.
2. Dealer Customizations
Dealers may make further changes to the PDF Templates to add or modify the existing mappings however, Dealers are responsible for maintaining such customizations including managing versions and reconciling changes with each new version.
3. Bar Codes
Dealers may modify the PDF templates to add bar code fields compatible with their specific document imaging system. However, similar to other Dealer Customizations outlined above, maintenance of bar code customizations is the responsibility of the dealer.
4. Embedded Javascript
Self-Serve Forms does not officially support the use of Javascript embedded in PDFs. Where a fund company embeds Javascript functionality into the PDF, those functionality may or may not work as expected.

NBC - RETIREMENT INCOME FUND

About This Form

This table is based on information provided by the manufacturer.

FundSERV Code	Manufacturer	Form Code	Form Version	PDF File (Click to Download)	Notes
NBC	National Bank Investment Inc.	27095-402 (EN) 27095-401 (FR)	2017-07-01	NBC-NAAF-INCOME-EN-0717.pdf NBC-NAAF-INCOME-FR-0717.pdf	

System Requirements

Minimum requirements for use in EWMS is v17.5.

Minimum requirements for modifying the PDF Templates is Adobe Acrobat Pro 7.0.

When To Use This Form*Supported Use Cases*

The following use cases are supported for this form in EWMS:

1. Open Account*
2. Open Account* with Systematic Instructions:
 - a. New AWD/SWP

*For the account types listed under Supported Account Types only.

Supported Account Types

1. Retirement Income Fund
 - a. RIF
 - b. Spousal RIF
 - c. LIF
 - d. LRIF
 - e. PRIF
 - f. RLIF

Although the manufacturer supports using this form for other use cases, as delivered, they are not enabled in EWMS:

1. Place Initial Investments:
 - a. Purchase
 - b. Transfers
2. Place Subsequent Investments:
 - a. Purchase
 - b. Transfer
 - c. Redemption
3. Modify Systematic Instructions:
 - a. AWD/SWP
4. Cancel Systematic Instructions:
 - a. AWD/SWP

XPRESSuite does not support maintenance of Systematic Instructions (Modify and Cancel).

How To Use This Form

ADDING this form to your Self-Serve Forms Library

The following steps will enable this form for the Supported Use Cases in XPRESSuite.

Step 1: EWMS > Operations > Self-Serve Forms > Forms Library.

Click the "Add New Form" button in the top toolbar.

Step 2: EWMS > Operations > Self-Serve Forms > Forms Library > Form Details

Enter the following values for the fields on this screen. Any fields not identified can be left at their default value.

Form Details

Form Code:

NBC-NAAF-INCOME

English Name:

National Bank Account Opening - Retirement Income

French Name:

Banque Nationale Ouverture de compte - revenu de retraite

Group Tags:

NBC

NAAF

INCOME

Upload PDF Templates

Upload both the English and French PDF Templates using the File Upload controls on this screen.

(Click the file name to download.)

English: NBC-NAAF-INCOME-EN.pdf

French: NBC-NAAF-INCOME-FR.pdf

Click the "Save and Next" button on the bottom-right.

Step 3: EWMS > Operations > Self-Serve Forms > Forms Library > Form Options

Enter the following values for the fields on this screen. Any fields not identified can be left at their default value.

Advance Options

Page Expansion Element:

client.coOwner[J,I][#]~relatedParty[B][#]~account[#].autoInstruction[7241][#]

Click the "Save and Next" button on the bottom-right.

Step 4: EWMS > Operations > Self-Serve Forms > Forms Library > Workflow Rules

Create a Business Rule with the following "when" and "then" parameters.

```

rule "NBC-NAAF-INCOME-M"
dialect "mvel"
when
WorkflowRulesProcess(code == "AO")
Account(managementCompany.clientName == "Yes")
Account(managementCompany.code == "NBC")
Account( type.code == "10" || == "12" || == "15" || == "30" || == "44" || == "67" )
then
SingleApplicationForm form = new SingleApplicationForm(); form.setCode("NBC-NAAF-INCOME");
form.setMandatory(true); insert(form);
end

```

Validate and Save the rule, then Build and Create the updated Package with this new rule.

Click the "Finish" button.

UPDATING this form in your Self-Serve Forms Library

The following steps will update the PDF Templates for this form where it already exists in the Self-Serve Forms Library.

Step 1: EWMS > Operations > Self-Serve Forms > Forms Library.

Search for the form code: NBC-NAAF-INCOME.

Click the "Edit" button in the Search Results list.

Step 2: EWMS > Operations > Self-Serve Forms > Forms Library > Form Details

Upload PDF Templates

Upload both the English and French PDF Templates using the File Upload controls on this screen.

(Click the file name to download.)

NOTE: Uploading a file will replace the existing file in your Self-Serve Forms Library.

English: NBC-NAAF-INCOME-EN.pdf

French: NBC-NAAF-INCOME-FR.pdf

Click the "Save and Next" button on the bottom-right.

Step 3: EWMS > Operations > Self-Serve Forms > Forms Library > Form Options

Do not make changes to the values on this screen.

Click the "Save and Next" button on the bottom-right.

Step 4: EWMS > Operations > Self-Serve Forms > Forms Library > Workflow Rules

Do not make changes to the values on this screen.

Click the "Save and Next" button on the bottom-right.

Notes

Constraints and Limitations

1. Field Mappings
Some fields on the PDF Templates may not be mapped to EWMS
 - a. Conditionally-populated fields and fields requiring custom Data Dictionary extensions are not mapped.
 - b. Fields that have no corresponding data element in EWMS are not mapped.
2. Dealer Customizations
Dealers may make further changes to the PDF Templates to add or modify the existing mappings however, Dealers are responsible for maintaining such customizations including managing versions and reconciling changes with each new version.
3. Bar Codes
Dealers may modify the PDF templates to add bar code fields compatible with their specific document imaging system. However, similar to other Dealer Customizations outlined above, maintenance of bar code customizations is the responsibility of the dealer.
4. Embedded Javascript
Self-Serve Forms does not officially support the use of Javascript embedded in PDFs. Where a fund company embeds Javascript functionality into the PDF, those functionality may or may not work as expected.

VPI Value Partners Investments

VPI - INVESTMENT PLAN APPLICATION

About This Form

This table is based on information provided by the manufacturer.

FundSERV Code	Manufacturer	Form Code	Form Version	PDF File	Notes
VPI	Value Partners Investments	VPI Investment Plan Application	2018	VPI-NAAF-INVESTMENT-EN.pdf	No French version.

System Requirements

Minimum requirements for use in EWMS is v18.0.

Minimum requirements for modifying the PDF Templates is Adobe Acrobat Pro 7.0.

When To Use This Form

Supported Use Cases

The following use cases are supported for this form in EWMS:

1. Open Account*
2. Open Account* with Systematic Instructions:
 - a. New PAC
 - b. New AWD/SWP

*For the account types listed under Supported Account Types only.

Supported Account Types

1. Retirement Savings Plans
 - a. RSP
 - b. Spousal RSP
2. Locked-In Retirement Savings Plans
 - a. LRSP
 - b. RLSP
 - c. LIRA
3. Income Plans
 - a. RIF
 - b. Spousal RIF
 - c. LRIF
 - d. PRIF

- e. RLIF
- f. LIF
- 4. Non-Registered/Open/Cash/Investment Accounts
 - a. Individual
 - b. Joint
 - c. In Trust For
 - d. Non-Personal
 - i. Corporation

Unsupported Use Cases

Although the manufacturer supports using this form for other use cases, as delivered, they are not enabled in EWMS:

- 1. Open Account* with Systematic Instructions:
 - a. Automatic Switches
- 2. Place Initial Investments:
 - a. Purchase
 - b. Transfers
- 3. Place Subsequent Investments:
 - a. Purchase
 - b. Transfer
 - c. Redemption

How To Use This Form

ADDING this form to your Self-Serve Forms Library

The following steps will enable this form for the Supported Use Cases in XPRESSuite.

Step 1: EWMS > Operations > Self-Serve Forms > Forms Library.

Click the "Add New Form" button in the top toolbar.

Step 2: EWMS > Operations > Self-Serve Forms > Forms Library > Form Details

Enter the following values for the fields on this screen. Any fields not identified can be left at their default value.

Form Details

Form Code:

| VPI-NAAF-INVESTMENT

English Name:

| VPI Investment Plan Application

French Name:

No French version

Group Tags:

VPI

NAAF

Upload PDF Templates

Upload the English PDF Template using the File Upload controls on this screen.

English: VPI-NAAF-INVESTMENT-EN.pdf

Click the "Save and Next" button on the bottom-right.

Step 3: EWMS > Operations > Self-Serve Forms > Forms Library > Form Options

Enter the following values for the fields on this screen. Any fields not identified can be left at their default value.

Advance Options

Page Expansion Element:

relatedParty[B][#]~account[1].autoInstruction[2242,2241,7241][#].investment[#]

Click the "Save and Next" button on the bottom-right.

Step 4: EWMS > Operations > Self-Serve Forms > Forms Library > Workflow Rules

Create a Business Rule with the following "when" and "then" parameters.

```
rule "VPI-NAAF-INVESTMENT"
```

```
  dialect "mvel"
```

```
  when
```

```
    WorkflowRulesProcess(code == "AO")
```

```
    Account(managementCompany.clientName == "Yes")
```

```
    Account(managementCompany.code == "VPI")
```

```
    Account( type.mnemonic == "OPEN" || == "RRSP" || == "SRSP" || == "LIRA" || == "LRSP" ||  
    == "RRIF" || == "SRIF" || == "LRIF" || == "LIF" || == "PRIF" || == "RLIF" || == "RLSP" )
```

then
SingleApplicationForm form = new SingleApplicationForm(); form.setCode("VPI-NAAF-INVESTMENT"); form.setMandatory(true); insert(form);
end

Validate and Save the rule, then Build and Create the updated Package with this new rule.

Click the "Finish" button.

UPDATING this form in your Self-Serve Forms Library

The following steps will update the PDF Templates for this form where it already exists in the Self-Serve Forms Library.

Step 1: EWMS > Operations > Self-Serve Forms > Forms Library.

Search for the form code: VPI-NAAF-INVESTMENT

Click the "Edit" button in the Search Results list.

Step 2: EWMS > Operations > Self-Serve Forms > Forms Library > Form Details

Upload PDF Templates

Upload the English PDF Template using the File Upload controls on this screen.

NOTE: Uploading a file will replace the existing file in your Self-Serve Forms Library.
English: VPI-NAAF-INVESTMENT-EN.pdf

Click the "Save and Next" button on the bottom-right.

Step 3: EWMS > Operations > Self-Serve Forms > Forms Library > Form Options

Do not make changes to the values on this screen.

Click the "Save and Next" button on the bottom-right.

Step 4: EWMS > Operations > Self-Serve Forms > Forms Library > Workflow Rules

Do not make changes to the values on this screen.

Click the "Save and Next" button on the bottom-right.

Notes

Constraints and Limitations

1. Field Mappings

Some fields on the PDF Templates may not be mapped to EWMS

 - a. Conditionally-populated fields and fields requiring custom Data Dictionary extensions are not mapped.
 - b. Fields that have no corresponding data element in EWMS are not mapped.
2. Dealer Customizations

Dealers may make further changes to the PDF Templates to add or modify the existing mappings

however, Dealers are responsible for maintaining such customizations including managing versions and reconciling changes with each new version.

3. Bar Codes

Dealers may modify the PDF templates to add bar code fields compatible with their specific document imaging system. However, similar to other Dealer Customizations outlined above, maintenance of bar code customizations is the responsibility of the dealer.

4. Embedded Javascript

Self-Serve Forms does not officially support the use of Javascript embedded in PDFs. Where a fund company embeds Javascript functionality into the PDF, those functionality may or may not work as expected.

Click the "Save and Next" button on the bottom-right.

Step 3: EWMS > Operations > Self-Serve Forms > Forms Library > Form Options

Enter the following values for the fields on this screen. Any fields not identified can be left at their default value.

Advance Options

Page Expansion Element:

order.investment[#]

Click the "Save and Next" button on the bottom-right.

Step 4: EWMS > Operations > Self-Serve Forms > Forms Library > Workflow Rules

Create a Business Rule with the following "when" and "then" parameters.

The screenshot shows the Drools IDE interface. On the left is a sidebar with 'Browse', 'Knowledge Bases', 'Create New', 'Packages' (defaultPackage, forms, Global Area), 'QA', 'Package snapshots', and 'Administration'. The main area is titled 'Find forms VPI-REGISTERED-TRANSFER'. It has tabs for 'File', 'Edit', and 'Source'. The 'Edit' tab is active, showing the rule configuration. The rule is named 'VPI-REGISTERED-TRANSFER' and is in 'Draft' status. The 'WHEN' section has three conditions: 1. Workflow Process is 'TI' (OrderXPRESS), 2. Order type is 'ETI' (Ext. Transfer In), and 3. Order has investment with Management Company set to 'VPI' (Value Partners Investments Inc.). The 'THEN' section has one action: 1. Mandatory form 'VPI-REGISTERED-TRANSFER' VPI Transfer Authorization for Registered Investments. There are also icons for adding, removing, and moving rules on the right side of the 'WHEN' and 'THEN' sections.

```

rule "VPI-REGISTERED-TRANSFER"
  dialect "mvel"
  when
    WorkflowRulesProcess(code == "TI")
    Order(type == "ETI")
    order:Order() investment : Investment( managementCode == "VPI" ) from order.investments
  then
    SingleApplicationForm form = new SingleApplicationForm(); form.setCode("VPI-REGISTERED-TRANSFER"); form.setMandatory(true); insert(form);
  end

```

Validate and Save the rule, then Build and Create the updated Package with this new rule.

Click the "Finish" button.

UPDATING this form in your Self-Serve Forms Library

The following steps will update the PDF Templates for this form where it already exists in the Self-Serve Forms Library.

Step 1: EWMS > Operations > Self-Serve Forms > Forms Library.

Search for the form code: VPI-REGISTERED-TRANSFER

Click the "Edit" button in the Search Results list.

Step 2: EWMS > Operations > Self-Serve Forms > Forms Library > Form Details

Upload PDF Templates

Upload the English PDF Template using the File Upload controls on this screen.

NOTE: Uploading a file will replace the existing file in your Self-Serve Forms Library.

English: VPI-REGISTERED-TRANSFER-EN.pdf

Click the "Save and Next" button on the bottom-right.

Step 3: EWMS > Operations > Self-Serve Forms > Forms Library > Form Options

Do not make changes to the values on this screen.

Click the "Save and Next" button on the bottom-right.

Step 4: EWMS > Operations > Self-Serve Forms > Forms Library > Workflow Rules

Do not make changes to the values on this screen.

Click the "Save and Next" button on the bottom-right.

Notes

Constraints and Limitations

1. Field Mappings
Some fields on the PDF Templates may not be mapped to EWMS
 - a. Conditionally-populated fields and fields requiring custom Data Dictionary extensions are not mapped.
 - b. Fields that have no corresponding data element in EWMS are not mapped.
2. Dealer Customizations
Dealers may make further changes to the PDF Templates to add or modify the existing mappings however, Dealers are responsible for maintaining such customizations including managing versions and reconciling changes with each new version.
3. Bar Codes
Dealers may modify the PDF templates to add bar code fields compatible with their specific document imaging system. However, similar to other Dealer Customizations outlined above, maintenance of bar code customizations is the responsibility of the dealer.
4. Embedded Javascript
Self-Serve Forms does not officially support the use of Javascript embedded in PDFs. Where a fund company embeds Javascript functionality into the PDF, those functionality may or may not work as expected.

Registered Deposit Brokers Association	Guaranteed Investment Application Application Pour Certificat De Placement Garanti	2017-5 compact	RDBA-GIC-APP-EN-0517.pdf RDBA-GIC-APP-FR-0517.pdf	

System Requirements

Minimum requirements for use in EWMS is v17.5.

Minimum requirements for modifying the PDF Templates is Adobe Acrobat Pro DC.

When To Use This Form

Supported Use Cases

The following use cases are supported for this form in EWMS:

1. Place a Purchase Order for Guaranteed Investment Certificate (GIC) Investments for the following Registration Types
 - a. Individual, Joint WROS, Joint TIC, Individual In Trust For

How To Use This Form

ADDING this form to your Self-Serve Forms Library

The following steps will enable this form for the Supported Use Cases in XPRESSuite.

Step 1: EWMS > Operations > Self-Serve Forms > Forms Library.

Click the "Add New Form" button in the top toolbar.

Step 2: EWMS > Operations > Self-Serve Forms > Forms Library > Form Details

Enter the following values for the fields on this screen. Any fields not identified can be left at their default value.

Form Details

Form Code:

RDBA-GIC-APP

English Name:

Guaranteed Investment Certificate Application

French Name:

Application Pour Certificat De Placement Garanti

Group Tags:

RDBA

Upload PDF Templates

Upload both the English and French PDF Templates using the File Upload controls on this screen.

English: RDBA-GIC-APP-EN.pdf

French: RDBA-GIC-APP-FR.pdf

Click the "Save and Next" button on the bottom-right.

Step 3: EWMS > Operations > Self-Serve Forms > Forms Library > Form Options

Enter the following values for the fields on this screen. Any fields not identified can be left at their default value.

Advance Options

Page Expansion Element:
`order.investment[#]`

Click the "Save and Next" button on the bottom-right.

Step 4: EWMS > Operations > Self-Serve Forms > Forms Library > Workflow Rules

Create the following Business Rules with the their "when" and "then" parameters.

Rule #1 - For Individual Registration

The screenshot shows the Xpressuite Forms Library interface. On the left, the 'Knowledge Bases' tree is expanded, showing 'defaultPackage', 'fee', 'forms', and 'Global Area'. The 'forms' package is selected. On the right, the 'Find' tab is active, showing the rule 'RDBA-GIC-APP-INDIVIDUAL'. The 'Attributes' tab is selected, showing the rule configuration. The 'When' section contains four conditions: 1. Workflow Process is [OE] Order Entry, 2. order:Order() investment : Investment(type.code == "GIC") from order.investments, 3. Order type is [PUR] Purchase, and 4. Registration type is [01] Individual. The 'Then' section contains one action: 1. Mandatory form [RDBA-GIC-APP] Guaranteed Investment Certificate Application.

```
rule "RDBA-GIC-APP-INDIVIDUAL"
  dialect "mvel"
  when
    WorkflowRulesProcess(code == "OE")
    order:Order() investment : Investment( type.code == "GIC" ) from order.investments
    Order(type == "PUR")
    Registration(recipientType.code == "01")
  then
    SingleApplicationForm form = new SingleApplicationForm(); form.setCode("RDBA-GIC-APP");
    form.setMandatory(true); insert(form);
  end
```

Validate and Save the rule

Rule #2 - For Individual In Trust For Registration

The screenshot shows the Xpressuite Forms Library interface. On the left, the 'Knowledge Bases' tree is expanded, showing 'defaultPackage', 'fee', 'forms', and 'Global Area'. The 'forms' package is selected. On the right, the 'Find' tab is active, showing the rule 'RDBA-GIC-APP-INDIVIDUAL-ITF'. The 'Attributes' tab is selected, showing the rule configuration. The 'When' section contains four conditions: 1. Workflow Process is [OE] Order Entry, 2. order:Order() investment : Investment(type.code == "GIC") from order.investments, 3. Order type is [PUR] Purchase, and 4. Registration type is [02] Individual ITF. The 'Then' section contains one action: 1. Mandatory form [RDBA-GIC-APP] Guaranteed Investment Certificate Application.

```
rule "RDBA-GIC-APP-INDIVIDUAL-ITF"
```

```

dialect "mvel"
when
  WorkflowRulesProcess(code == "OE")
  order:Order() investment : Investment( type.code == "GIC" ) from order.investments
  Order(type == "PUR")
  Registration(recipientType.code == "02")
then
  SingleApplicationForm form = new SingleApplicationForm(); form.setCode("RDBA-GIC-APP");
  form.setMandatory(true); insert(form);
end

```

Validate and Save the rule

Rule #3 - Joint WROS Registration

```

rule "RDBA-GIC-APP-JOINT-WROS"
dialect "mvel"
when
  WorkflowRulesProcess(code == "OE")
  order:Order() investment : Investment( type.code == "GIC" ) from order.investments
  Order(type == "PUR")
  Registration(recipientType.code == "03")
then
  SingleApplicationForm form = new SingleApplicationForm(); form.setCode("RDBA-GIC-APP");
  form.setMandatory(true); insert(form);
end

```

Validate and Save the rule

Rule #4 - Joint TIC Registration

rule "RDBA-GIC-APP-JOINT-TIC"
dialect "mvel"
when
WorkflowRulesProcess(code == "OE")
order:Order() investment : Investment(type.code == "GIC") from order.investments
Registration(recipientType.code == "04")
then
SingleApplicationForm form = new SingleApplicationForm(); form.setCode("RDBA-GIC-APP"); form.setMandatory(true); insert(form);
end

Validate and Save the rule, then Build and Create the updated Package with all four new rules.

Click the "Finish" button.

UPDATING this form in your Self-Serve Forms Library

 - b. Fields that have no corresponding data element in EWMS are not mapped.
2. Dealer Customizations
Dealers may make further changes to the PDF Templates to add or modify the existing mappings however, Dealers are responsible for maintaining such customizations including managing versions and reconciling changes with each new version.
3. Bar Codes
Dealers may modify the PDF templates to add bar code fields compatible with their specific document imaging system. However, similar to other Dealer Customizations outlined above, maintenance of bar code customizations is the responsibility of the dealer.
4. Embedded Javascript
Self-Serve Forms does not officially support the use of Javascript embedded in PDFs. Where a fund company embeds Javascript functionality into the PDF, those functionality may or may not work as expected.

RDBA - CLIENT INFORMATION AND CONSENT FORM**About This Form**

This table is based on information provided by the association.

Association	Form Code	Form Version	PDF File	Notes
Registered Deposit Brokers Association	CICF Formulaire De Consentement Et D'Information Sur Le Client	2017-5	RDBA-CICF- FORM-EN- 0517.pdf RDBA-CICF- FORM-FR- 0517.pdf	

System Requirements

Minimum requirements for use in EWMS is v17.5.

Minimum requirements for modifying the PDF Templates is Adobe Acrobat Pro DC.

When To Use This Form*Supported Use Cases*

The following use cases are supported for this form in EWMS:

1. This form will be generated when an Initial Purchase Order for Guaranteed Investment Certificate (GIC) Investments is submitted for a Plan (Account).
2. This form will be filled in with information regarding the Primary Owner
3. This form will be generated for the following registration types:
 - a. Individual, Individual ITF, Joint WROS, Joint WROS ITF, Joint TIC, Joint TIC ITF

How To Use This Form

ADDING this form to your Self-Serve Forms Library

The following steps will enable this form for the Supported Use Cases in XPRESSuite.

Step 1: EWMS > Operations > Self-Serve Forms > Forms Library.

Click the "Add New Form" button in the top toolbar.

Step 2: EWMS > Operations > Self-Serve Forms > Forms Library > Form Details

Enter the following values for the fields on this screen. Any fields not identified can be left at their default value.

Form Details

Form Code:

RDBA-CICF-FORM

English Name:

Client Information and Consent Form

French Name:

Formulaire De Consentement Et D'Information Sur Le Client

Group Tags:

RDBA

Upload PDF Templates

Upload both the English and French PDF Templates using the File Upload controls on this screen.

English: RDBA-CICF-FORM-EN-0517.pdf

French: RDBA-CICF-FORM-FR-0517.pdf

Click the "Save and Next" button on the bottom-right.

Step 3: EWMS > Operations > Self-Serve Forms > Forms Library > Form Options

Enter the following values for the fields on this screen. Any fields not identified can be left at their default value.

Advance Options

Page Expansion Element:

n/a

Click the "Save and Next" button on the bottom-right.

Step 4: EWMS > Operations > Self-Serve Forms > Forms Library > Workflow Rules

Create the following Business Rules with the their "when" and "then" parameters.

Rule #1 - For Primary Owner - Individual

The screenshot shows the Xpressuite Forms Library interface. On the left is a sidebar with 'Browse', 'Knowledge Bases', 'Create New', 'Packages', 'defaultPackage', 'forms', 'Global Area', 'QA', 'Package snapshots', and 'Administration'. The main area has tabs for 'Find', 'forms', 'RDBA_DIRECTOR_LISTING', and 'RDBA_CICF'. The 'RDBA_CICF' tab is active, showing a rule configuration window. The rule is named 'RDBA_CICF' and is in 'Draft' status. The 'WHEN' section contains five conditions: 1. Workflow Process is [OE] Order Entry, 2. Order type is [PUR] Purchase, 3. Order is first order for account: Yes, 4. order:Order() investment : Investment(type.code == "GIC") from order.investment, and 5. Registration(recipientType.code == "01" || == "02" || == "03" || == "04" || == "15" || == "18" || == "22" || == "24"). The 'THEN' section contains one action: 1. Mandatory form [RDBA-CICF-FORM] Client Information and Consent Form. The status is 'Draft' and there is a 'Close all items' button at the bottom right.

```

rule "RDBA_CICF"
  dialect "mvel"
  when
    WorkflowRulesProcess(code == "OE")
    Order(type == "PUR")
    Order( firstOrderForAccount == "Yes" )
    order:Order() investment : Investment( type.code == "GIC" ) from order.investments
    Registration( recipientType.code == "01" || == "02" || == "03" || == "04" || == "15" || == "18" ||
    == "22" || == "24" )
  then
    SingleApplicationForm form = new SingleApplicationForm(); form.setCode("RDBA-CICF-FORM");
    form.setMandatory(true); insert(form);
  end

```

Validate and Save the rule, then Build and Create the updated Package with the new rule.

Click the "Finish" button.

UPDATING this form in your Self-Serve Forms Library

The following steps will update the PDF Templates for this form where it already exists in the Self-Serve Forms Library.

Step 1: EWMS > Operations > Self-Serve Forms > Forms Library.

Search for the form code: RDBA-CICF-FORM

Click the "Edit" button in the Search Results list.

Step 2: EWMS > Operations > Self-Serve Forms > Forms Library > Form Details

Upload PDF Templates

Upload both the English and French PDF Templates using the File Upload controls on this screen.

NOTE: Uploading a file will replace the existing file in your Self-Serve Forms Library.

English: RDBA-CICF-FORM-EN-0517.pdf

French: RDBA-CICF-FORM-FR-0517.pdf

Click the "Save and Next" button on the bottom-right.

Step 3: EWMS > Operations > Self-Serve Forms > Forms Library > Form Options

Do not make changes to the values on this screen.

Click the "Save and Next" button on the bottom-right.

Step 4: EWMS > Operations > Self-Serve Forms > Forms Library > Workflow Rules

Do not make changes to the values on this screen.

Click the "Save and Next" button on the bottom-right.

Notes

Constraints and Limitations

1. Field Mappings
Some fields on the PDF Templates may not be mapped to EWMS
 - a. Conditionally-populated fields and fields requiring custom Data Dictionary extensions are not mapped.
 - b. Fields that have no corresponding data element in EWMS are not mapped.
2. Dealer Customizations
Dealers may make further changes to the PDF Templates to add or modify the existing mappings however, Dealers are responsible for maintaining such customizations including managing versions and reconciling changes with each new version.
3. Bar Codes
Dealers may modify the PDF templates to add bar code fields compatible with their specific document imaging system. However, similar to other Dealer Customizations outlined above, maintenance of bar code customizations is the responsibility of the dealer.
4. Embedded Javascript
Self-Serve Forms does not officially support the use of Javascript embedded in PDFs. Where a fund company embeds Javascript functionality into the PDF, those functionality may or may not work as expected.

Page Expansion Element:

n/a

Click the "Save and Next" button on the bottom-right.

Step 4: EWMS > Operations > Self-Serve Forms > Forms Library > Workflow Rules

Create the following Business Rules with the their "when" and "then" parameters.

Rule #1 - For Joint Owner - Joint TIC

The screenshot shows the Xpressuite Forms Library interface. On the left, the 'Knowledge Bases' tree is visible with 'forms' selected. The main area displays the configuration for the rule 'RDBA-CICF-FORM-JOINT-TIC'. The 'WHEN' section contains five conditions: 1. Workflow Process is [OE] Order Entry, 2. Registration type is [04] Joint TIC, 3. Order is first order for account Yes, 4. Order type is [PUR] Purchase, and 5. order:Order() investment : Investment(type.code == "GIC") from order.investments. The 'THEN' section contains one action: 1. Mandatory form [RDBA-CICF-FORM-JOINT] Client Information and Consent Form - Joint Owner.

rule "RDBA-CICF-FORM-JOINT-TIC"

dialect "mvel"

when

WorkflowRulesProcess(code == "OE")

Registration(recipientType.code == "04")

Order(firstOrderForAccount == "Yes")

Order(type == "PUR")

order:Order() investment : Investment(type.code == "GIC") from order.investments

then

SingleApplicationForm form = new SingleApplicationForm(); form.setCode("RDBA-CICF-FORM-JOINT"); form.setMandatory(true); insert(form);

end

Validate and Save the rule

Rule #2 - For Joint Owner - Joint WROS

The screenshot shows the Xpressuite Forms Library interface. On the left, the 'Knowledge Bases' tree is visible with 'forms' selected. The main area displays the configuration for the rule 'RDBA-CICF-FORM-JOINT-WROS'. The 'WHEN' section contains five conditions: 1. Workflow Process is [OE] Order Entry, 2. Registration type is [03] Joint WROS, 3. Order type is [PUR] Purchase, 4. Order is first order for account Yes, and 5. order:Order() investment : Investment(type.code == "GIC") from order.investments. The 'THEN' section contains one action: 1. Mandatory form [RDBA-CICF-FORM-JOINT] Client Information and Consent Form - Joint Owner.

```

rule "RDBA-CICF-FORM-JOINT-WROS"
  dialect "mvel"
  when
    WorkflowRulesProcess(code == "OE")
    Registration(recipientType.code == "03")
    Order(type == "PUR")
    Order( firstOrderForAccount == "Yes" )
    order:Order() investment : Investment( type.code == "GIC" ) from order.investments
  then
    SingleApplicationForm form = new SingleApplicationForm(); form.setCode("RDBA-CICF-FORM-
JOINT"); form.setMandatory(true); insert(form);
  end

```

Validate and Save the rule, then Build and Create the updated Package with all two new rules.

Click the "Finish" button.

UPDATING this form in your Self-Serve Forms Library

The following steps will update the PDF Templates for this form where it already exists in the Self-Serve Forms Library.

Step 1: EWMS > Operations > Self-Serve Forms > Forms Library.

Search for the form code: RDBA-CICF-FORM-JOINT

Click the "Edit" button in the Search Results list.

Step 2: EWMS > Operations > Self-Serve Forms > Forms Library > Form Details

kyc.domesticPEP.code == "Y" || kyc.HIO.code == "Y") && code == "J") from registration.coOwners

then

SingleApplicationForm form = new SingleApplicationForm(); form.setCode("RDBA-PEP-FORM-JOINT"); form.setMandatory(true); insert(form);

end

Validate and Save the rule, then Build and Create the updated Package with the new rule.

Click the "Finish" button.

UPDATING this form in your Self-Serve Forms Library

The following steps will update the PDF Templates for this form where it already exists in the Self-Serve Forms Library.

Step 1: EWMS > Operations > Self-Serve Forms > Forms Library.

Search for the form code: RDBA-PEP-FORM-JOINT

Click the "Edit" button in the Search Results list.

Step 2: EWMS > Operations > Self-Serve Forms > Forms Library > Form Details

Upload PDF Templates

Upload both the English and French PDF Templates using the File Upload controls on this screen.

NOTE: Uploading a file will replace the existing file in your Self-Serve Forms Library.

English: RDBA-PEP-FORM-JOINT-EN-2017-5.pdf

French: RDBA-PEP-FORM-JOINT-FR-2017-5.pdf

Click the "Save and Next" button on the bottom-right.

Step 3: EWMS > Operations > Self-Serve Forms > Forms Library > Form Options

Do not make changes to the values on this screen.

Click the "Save and Next" button on the bottom-right.

Step 4: EWMS > Operations > Self-Serve Forms > Forms Library > Workflow Rules

Do not make changes to the values on this screen.

Click the "Save and Next" button on the bottom-right.

Notes

Constraints and Limitations

1. Field Mappings
Some fields on the PDF Templates may not be mapped to EWMS
 - a. Conditionally-populated fields and fields requiring custom Data Dictionary extensions are not mapped.
 - b. Fields that have no corresponding data element in EWMS are not mapped.
2. Dealer Customizations
Dealers may make further changes to the PDF Templates to add or modify the existing mappings however, Dealers are responsible for maintaining such customizations including managing versions and reconciling changes with each new version.
3. Bar Codes
Dealers may modify the PDF templates to add bar code fields compatible with their specific document imaging system. However, similar to other Dealer Customizations outlined above, maintenance of bar code customizations is the responsibility of the dealer.
4. Embedded Javascript
Self-Serve Forms does not officially support the use of Javascript embedded in PDFs. Where a

fund company embeds Javascript functionality into the PDF, those functionality may or may not work as expected.

RDBA - POLITICALLY EXPOSED PERSON FORM - IN TRUST FOR
